PROFILE SUMMARY

Enthusiastic and detail-oriented Full Stack Developer with 5 years of experience creating high-performance web applications. Proficient in Laravel for backend development, integrating secure APIs, payment gateways, and third-party services. Skilled in Vue.js, Nuxt.js, and Tailwind CSS for building modern, responsive frontends. Passionate about exploring new technologies, contributing to open-source, and delivering robust solutions to complex business challenges.

TECHNICAL SKILL

Backend

Laravel (advanced)
PHP (custom development)
RESTful APIs (high-level security, integration)
Payment Integrations: Stripe, 1Link, HalkBank
Third-Party Integrations: Alphabroder, Amazon, Walmart, DHL, TCL

Other Skills

Git & GitHub (version control)
CI/CD pipelines
Agile methodologies (Scrum/Kanban)
Database Design & Optimization (MySQL)

Frontend

Vue.js (advanced), PrimeVue
Nuxt.js
Tailwind CSS
Livewire, Inertia.js
Angular (basic experience)

KEY PROJECTS

paf.gov.pk and joinpaf.gov.pk

Mission-critical sites for Pakistan Air Force with a focus on performance and security.

markt.mk

An eCommerce platform featuring a robust admin panel and advanced product/vendor management.

leosystem.com

Custom solutions for enterprise-level clients, emphasizing secure data handling and API integrations.

Personal Projects

- Chat applications (inspired by Messenger/WhatsApp).
- Social networking platforms (similar to Facebook).
- Various prototypes and MVPs for POS, HR, CRM, and educational systems.

WORK EXPERIENCE

Full Stack Developer

Ongoing

(Freelance) – Fiverr

- Provide custom Laravel solutions for diverse clients, including API integrations and payment gateways.
- Collaborate with international clientele to build and deploy e-commerce sites, POS systems, and CRM solutions.
- Troubleshoot performance bottlenecks and deliver high-quality, secure, and maintainable applications.

Full Stack Engineer

April, 2022 – Present

Pakistan Air Force, Peshawar

- Contributed to high-profile projects for the Pakistan Air Force (e.g., paf.gov.pk), focusing on security, performance, and reliability.
- Developed mission-critical applications adhering to strict security protocols and regulatory requirements.
- Collaborated with cross-functional teams to gather requirements and deliver solutions within tight deadlines.

Full Stack Engineer

December 2020 – March 2022

Smart-Tech Solutions

- Led the development of user-centric Islamic web applications, emphasizing usability and accessibility.
- Designed a robust store management system with inventory management, order processing, and reporting features.
- Built a multi-vendor eCommerce platform with advanced admin panels, streamlining operations for multiple vendors.

Full Stack Engineer

March 2020 – November 2020

Apparel Globe

- Spearheaded the integration of Walmart's eCommerce account to optimize product visibility and sales.
- Developed custom solutions to integrate third-party APIs (DHL for shipping labels, Alphabroder for automated order processing).
- Worked closely with cross-functional teams to define requirements, design solutions, and ensure project delivery on schedule.

EDUCATION

FSC in Computer Science

2014 – 2016

Leeds College, Peshawar

Began my programming journey with C language, mastering fundamental concepts such as data structures, algorithms, and problem-solving. Built a solid foundation in programming logic and software development principles.

Bachelor Of Science in Computer Science

2016 – 2018

Govt Degree College, Akbarpura

Expanded my skills by learning C++ and applying it to develop small-scale projects. Gained hands-on experience in software design, debugging, and project implementation. Enhanced my understanding of object-oriented programming (OOP) and software development methodologies.

Master in Computer Science

2018 – 2020

Bacha Khan University, Charsadda

Advanced my expertise in web development by learning PHP, Laravel, HTML, CSS, JavaScript, and related technologies. Developed dynamic and responsive web applications, leveraging frameworks and tools to create efficient and user-friendly solutions. Strengthened my ability to design, deploy, and maintain modern web applications.

ADDITIONAL PRODUCTS & HIGHLIGHTS

POS System, E-commerce System, Multi-Vendor E-commerce, HR, CRM, Educational Systems

- Developed these systems to enhance operational efficiency and user engagement for various clients.
- Incorporated best practices for scalability, security, and performance.

Open-Source and Community Engagement

- Regularly publish Laravel tips and articles on lodhiui.com.
- Active on GitHub, contributing to and maintaining personal projects.

Passion for Learning

- Stay up to date with the latest Laravel and JavaScript ecosystem developments.
- Continuously experiment with new frameworks, libraries, and tools to expand technical expertise.
